Paul W. Wallace, M.D., M.P.A.  
Richard Weinstein, M.D., M.B.A.

15<sup>th</sup> August 2017

To the Nevada State Athletic Commission:

The Association of Ringside Physicians understands that consideration is being given to amend current regulations, and in so doing, permit the use of 8oz Gloves in the forthcoming boxing match between Floyd Mayweather and Conor McGregor. This is a bout that has already been set a specified weight class. Unless there is scientific evidence to support the view that such a change might improve the safety of this bout, we would strongly caution against allowing current regulations to be over-ruled. To do so would also set a precedent for future bouts.

Respectfully

Dr Raymond M. Monsell  
MSc MB BCh FFSEM Dip Sport Med  
Chairman of the Board of Directors  
Association of Ringside Physicians
