OCT 5, 2018 My oldest daughter Aeva told me she rather jump off our balcony at our home then hangout with ~~her~~ father.

During our 10 year relationship I endured verbal abuse, physical abuse Hit me in the back of my head, when he was drunk back handed me. he tried to wrestle me to the ground a few times.

Sexual abuse

BJ tried to get me to have sex with other men.

He tried to get me to smoke Marijuana (Peer pressure)

~~When~~ When he gets high he wanted me to perform sexual acts and if I didn't he would get ~~angry~~ angry and yell at me,

I Have not reported any of these incidents because of his name, reputation, the control

he has had over my life and I was scared.

BJ has been a drug addict since he was ~~13~~ 14.

He has patterns of up and down drug use and ~~he~~ uses his training camps to try and stay sober.

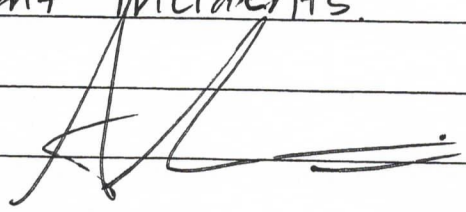

Things I've experienced terrifying threatening anger, aggression, he looks at me with rage, verbal abuse, vulgar swearing in front of my children and a lot of vulgar ~~text~~.

I woke up one night to him scared because he got cocaine on my oldest daughter. He was freaking out and he wanted to commit suicide. I called his father and his father witnessed it all.

2015 BJ got inducted by the hall of fame BJ got drunk attacked me in the room to try and get my phone. He shattered my phone, verbal abused me all night long. Him and his friends did cocaine in the bathroom all night, while me and my children were in the room and his niece & Aunty were in the living room.

I feel fearful for my safety and my childrens life, and for the influence he has over my children.

There has been so many incidents through out our relationship. These are ~~are~~ just more recent incidents.
